

Ramsgate Leasing Systems, *the lease finance specialists*

Ramsgate Leasing, the lease finance specialists

The option to finance instead of buying equipment outright creates business opportunities for you because you can get the equipment you need, when you need it without a large capital expenditure. In fact, financing is a smart financial move that offers you tax and cash-flow benefits. Ramsgate helps you make the most of these advantages.

Ramsgate gets credit approval on 91% of its applications.

Ramsgate is able to get credit approval for almost all of our customers. In fact, we pride ourselves on our ability to find financing for applicants with less-than-perfect credit. So, don't let a poor credit history stop you from moving ahead with your business!

Ramsgate offers finance options designed to fit every budget.

Ramsgate works with you to create a financing program that fits your business needs. Whether you're starting a new business, expanding an existing business or upgrading outdated equipment, we can arrange a financing option for you.

Ramsgate gets you an answer fast.

Timing is everything. On standard deals Ramsgate will give you an answer within 24 hours with a one-page application—even faster if you submit a full application package. For larger or riskier transactions, we can usually get you an answer in 48 hours.

We keep it simple.

Our job is to make your life easier. We walk you through the entire application process and explain all the finance options to you.

Ramsgate can finance transactions from \$10,000 up to \$5million.

Because we have access to private funds, as well as lines of credit at public institutions, we can get approval on credit applications when other agencies cannot. And, we can finance much larger deals.

Ramsgate handles all kinds of equipment—from MRIs to tractor trailers.

We do it all. Whether you need medical equipment, trucks, cement-mixers, computer hardware or restaurant equipment, we can help you. You focus on your business needs. We'll find the equipment and the financing.
