

My name is B.J. Aldridge and I am a Massage Therapist & Herbal Nutritionist in San Diego, CA. In my line of business health and wellness is very important to me. I strive daily to see to it that my qualifications are put to good use. And like most businesses, I too incorporate other items and products to help alleviate stress, assist in weight loss, and give one a piece of mind.

Myself, I have to say “WOW”. Wonderful Outstanding Wellness sums it all up, the Advanced Ion Therapeutic footbath treatments (used twice-weekly), in conjunction with the Enhanced Living vibrational plate bring about fast changes to skin and painful conditions. Both items were introduced to me by an amazing and caring man by the name of John Seymour. He has truly been a blessing and took the time to teach me how units work and how to get the best results for my clients.

At 54 years of age, I’m feeling 24. I have had improved energy, less pain, less stress, better concentration, and help with controlling my weight. The ionic foot bath treatments are my favorite. I love the way it rids my body of toxins and helps balance my body’s pH level by natural cellular activation. I have noticed even BETTER results once I started incorporating the Kangen water as part of my daily liquid intake. This water is also a must have, and is beneficial for the body as it helps to reverse the aging processes. Both the ionic foot bath and vibrational therapeutic devices are fun and easy to do. I do the 30 minute treatment with the Foot Bath, and 10 quick minutes a day on the vibration plate.

I use these items in my practice as a bonus for referrals to new and existing clients. Everyone loves them, and they love the water too! So make a change, a change for the better. Don’t think twice, enhance your life! It’s all we have so invest in the best with Enhanced Living Products! I guarantee you won’t be disappointed.
