

Dear John,

This note is to say thank you, thank you , thank you...the Ion Spa has changed my life. I really can't believe it ..to think for the past year I have been suffering with my feet. I have not been diagnosed because the doctor MD could not find out why my feet were hurting so much. After spending two months in a cast I was still having problems. I could not walk without pain. After just one detox foot bath I was able to walk on my hardwood floor and my ceramic bathroom floor without pain. It is amazing. I guess I had a lot of arthritis in my feet, and my overall system. Also, from time to time I experience pain in my upper legs.. that is how I know it is time for another detox session. I am so glad that I saw your ad and responded to it.

I am a believer I don't know how this works but I am glad it does.

Carolann C. Klingert
