

12/27/07

Dear John,

I have been using the Enhanced Living ADVANCED ION THERAPEUTICS footbath for about six weeks now. After the first two or three sessions, I noticed that the skin on my face had gotten very smooth and the fine lines under my eyes began to disappear. I have also felt a general increase in energy.

I have been giving first free sessions to my patients and have sold several spas in as well. Interest among my patients has been very high and I expect to sell many more of the foot spas over time.

Overall I am very impressed with the foot spa's detoxing effects and the positive energy that it creates in the office setting.

Thanks for coming to my office and introducing me to this modality.

Gary Loos, D.C.
