June 16, 2009

Dear John,

This letter is to tell you the good success I have had using the Ion Spa in my chiropractic office.

A long time chiropractic patient, Anna C, was diagnosed with lung cancer. She had successful surgery and regimen of anti cancer medications. The whole ordeal left her feeling very tired, run down and unable to regain her strength. She began Ion Spa treatments twice a week and within a few weeks her energy has come back and now she feels normal again. She is a life long Ion Spa advocate. She has seen what it has done for her and comes twice every month for her treatments. She has also referred many family and friends.

Sincerely,

Robert L. Stasiak
