

Hi John

I surely enjoyed meeting you on Saturday and I hope that this finds you well in all the fire storms. I've just learned that the fire is burning near Elifn Forest and Harmony Grove in Escondido - that's getting pretty close to me. I may have to leave very soon.

In any case. I have read thru all of your material and am ready to take my next "treatment".

I have to tell you, I can't believe the results of just one "treatment" with the Ion Spa. For years I have suffered with foot, ankle and leg pain after multiple injuries that compounded over several incidents. Most nights my foot aches all night long. In the mornings the pain has been quite significant. Due to favoring the one foot, my other one often swells and is painful as well.

After just this one treatment with the ION spa I have no more foot pain. I was on my feet all day on Saturday at the Expo and suffered no pain, after the fact, at all. Sunday I was able to walk to my clubhouse and back, again, with no pain. That's a first in years. There's been no aching at night, either. I am amazed. I can't wait to share this wonder with my friends.

I'm looking forward to continuing my treatment sessions and will let you know how well I do.

Thank you very much.
