

Those of us who are in the health care industry know the importance of detoxification in health. I had for a few years seen these ion baths at different seminars. This had my curiosity especially seeing people sitting in with there feet in this muck. Then one day John Seymour came by and said he would like to introduce me to the Enhanced Living ionic footbath with a free demo. I felt this energy in my legs and body energy it was so great that I ended up buying one. Now I have been doing the same thing with my patients and they love it. I sold three with in the first few weeks as well as several packages of 14 treatments. It's easy and it can really make a big difference with how your patients feel let alone how you will feel. Who isn't looking for an increase in energy and wellbeing? I fully recommend the Enhanced Living ADVANCED ION THERAPEUTICS footbath to anyone.

John Tolmosoff, D.C.
