

I am a 51 year old man, who has never done any type of a cleanse before. Today I am receiving my 6th treatment. I am really surprised by the amount of "stuff" that comes out of me; (I spent years working in the ceramic industry) and feel that a lot of old Heavy metals are being pulled out. My energy levels have increased and my general well ~~and~~ mental alertness has increased. I look forward to more treatments of the Ion Spa to help get my body to a cleaner type of balance. Thank you
